Managed Cybersecurity Solutions

Cybersecurity Assessment~ the first step in preparedness

WISP development~ creating the policies you need

Managed Cybersecurity~ providing peace of mind

Business Continuity Development

Disaster Recovery Planning

Managed Cybersecurity Solutions designed to protect your business.

Since 1999, MergerTree has been working with companies to merge secure technology solutions with business goals. The National Institute of Standards and Technology Cybersecurity framework, developed in 2014, defines the cybersecurity standards for technology in business. MergerTree Managed Cybersecurity Platform puts the NIST standards in place for your business.

The Path to effective Cybersecurity

Cybersecurity Assessment~ the first step in preparedness, the MergerTree cybersecurity assessment evaluates your network delivers documented issues, solutions and recommendations for compliance.

WISP development~ creating the written information security policies you need. MergerTree WISP development delivers a full set of security policies. The policies are company specific, securely hosted, annually updated and employee training is provided.

Managed Cybersecurity~ MergerTree establishes a strong foundation for your business with the MergerTree certified network. The network is continually monitored and proactively managed. Managed cybersecurity includes active guarding of your technology including compliance, proactive service, training, and policy updates and audits.

MergerTree ~ your comprehensive technology solution.
